Company Introduction

Crosswind Security and Safety Training & Consultancy LLC is a leading provider of professional training, consultancy, and inspection services, dedicated to upholding the highest standards of safety, quality, and environmental responsibility. Since our establishment in 2018, we have built a strong reputation as an ISO-certified and ADNOC Ariba-approved company, trusted by clients across the oil and gas, manufacturing, and construction sectors.

Our core expertise lies in Health and Safety Training, Technical Skills Development, and Food Safety Training, with tailored solutions designed to meet the specific needs of the catering and manufacturing industries. Over the years, we have expanded our service portfolio to include Lifting Equipment Inspections and Training, ensuring our clients maintain compliance with industry regulations while enhancing workplace safety performance.

In alignment with global sustainability trends, we are actively engaged in Environmental Studies and Sustainability Initiatives, promoting green energy solutions and supporting businesses in their transition toward a more sustainable future.

At Crosswind Security and Safety Training & Consultancy LLC, we are committed to empowering organizations and individuals by equipping them with the knowledge, skills, and tools needed to foster safe, efficient, and environmentally conscious operations. Our goal is to support our clients in safeguarding their workforce, protecting their brand, reducing operational risks, and enhancing overall competitiveness.

We take pride in building long-term partnerships with our clients, offering practical, results-driven solutions delivered with professionalism and efficiency. As industries continue to evolve, we remain agile and forward-thinking, ensuring that our services consistently align with the latest safety, regulatory, and environmental standards.

Crosswind Security and Safety Training & Consultancy LLC

Accreditation and Approvals

At Crosswind Security and Safety Training & Consultancy LLC, we are dedicated to delivering exceptional services that consistently meet and exceed the expectations of our valued clients across diverse industries. We recognize the importance of adhering to both local and international industrial standards, ensuring that every aspect of our operations reflects our unwavering commitment to quality and excellence. Our company is accredited by various prestigious local and international accreditation bodies, serving as a testament to our steadfast dedication to maintaining the highest standards of service in line with global requirements.

Additionally, we are an approved training centre accredited by the Abu Dhabi Centre for Technical and Vocational Education and Training (ACTVET) and the Abu Dhabi National Oil Company (ADNOC), further underscoring our position as a trusted partner in professional development and industry compliance.

In-Country Value (ICV) Commitment

At Crosswind Security and Safety Training & Consultancy LLC, we take immense pride in supporting the UAE's In-Country Value (ICV) Program, which is closely aligned with our broader mission to drive sustainable economic growth and contribute meaningfully to the nation's long-term prosperity. Our ICV commitment is built upon a strategic approach that emphasizes the development of local resources and capabilities, enabling us to play a proactive role in strengthening the country's industrial landscape. We focus on:

- Prioritizing the engagement of local suppliers and service providers to fortify the resilience and competitiveness of the UAE's supply chain.
- Empowering the local workforce through targeted training programs, skills development initiatives, and the creation of sustainable employment opportunities.
- Investing in the advancement of local infrastructure and operational capabilities to elevate service quality and efficiency across all our projects.
- Promoting knowledge transfer, research, and innovation to foster the establishment of enduring partnerships with our clients and stakeholders, driving long-term success.

By embedding ICV principles into the core of our business operations, we strive not only to deliver superior, value-driven solutions but also to contribute significantly to the UAE's broader objectives of economic diversification, industrial advancement, and sustainable development.

We are accredited from international certification bodies to further enhance our service qualities including but not limited to

Environmental Planning, Permitting, and Licensing

At Crosswind, we assist our clients in identifying, evaluating, managing, and mitigating environmental and social risks with a comprehensive approach. Our team consists of highly experienced consultants specializing in environmental permitting and licensing, bringing together a wealth of expertise accumulated over years of industry practice.

Environmental Assessments and Permitting Studies

Our expertise in environmental assessments and permitting includes a wide range of services, such as Environmental Impact Assessment (EIA), Environmental and Social Impact Assessment (ESIA), Strategic Environmental Assessment (SEA), Preliminary Environmental Review, EIA Summaries, Baseline Surveys, and specialized technical studies, including Soil and Groundwater Assessments and Marine Dispersion Modelling.

Environmental and Social Management Plans

We provide extensive support in developing and reviewing various environmental and social management plans. Our services include Construction Environmental Management Plans, Operational Environmental Management Plans, Environmental and Social Management System (ESMS) development and review, Environmental Action Plans, Environmental Compliance Monitoring, and other regulatory management plans tailored to project-specific requirements.

Renewable Energy and Sustainability

At Crosswind, we are committed to advancing renewable energy and sustainability by delivering innovative solutions tailored to environmental challenges. Our expertise spans solar, wind, and hybrid energy projects, ensuring regulatory compliance and efficient resource management. Through strategic planning, impact assessments, and sustainability frameworks, we help clients transition to cleaner energy, reduce carbon footprints, and achieve long-term environmental and economic resilience.

AI and VR Technology Advisory

Crosswind provides expert AI and VR technology consulting, offering innovative solutions for digital transformation, immersive training, process optimization, and enhanced decision-making across various industries.
